Doors open at 7½. Curtain rises at 7¾.
Half-price tickets will not be issued.

METROPOLITAN HALL.

TO-DAY, THERE WILL BE TWO GRAND Performances of
J. R. Smith's
COLOSSAL TOUR OF EUROPE.
It is pronounced by the London Times and New York papers to be the most beautiful, large and charming work ever given to this country. The Grand Tour embraces views in
FRANCE, GERMANY, SWITZERLAND, ITALY,
and a portion of the Old World.
Lectures and Music by Mr. ALWYN FIELD, who accompanies the Pictures.
Doors at 2 and 7½ o'clock.
Admission—25 cents; reserved seats, 50 cents.

BARRETT'S
Felt and Composition Roofs,
Which, on account of their extraordinary Fire resisting qualities have been pronounced by the Chicago Board of Underwriters as
Salamander Roof.
THIS KIND OF ROOFING WAS INTRODUCED into Cincinnati, Ohio, some ten or twelve years ago, by Messrs. Warren, Wetherill & Co., and has been generally used; and by virtue of its intrinsic excellence, the Kanawha Salt Company, of Virginia, were induced to try it on their salt works. Among the many large buildings covered by us within the last two or three years, we would refer to the Merchants' Hall, Board of Trade Building, Exchange Bank, Rose & Foster's Store, Briggs House, Metropolitan Hall, Rose & Foster's Block, Tribune Building, Iron Front Store on Lake street, between Wabash avenue and Michigan street, and the Iron Front Store on Wabash avenue. Water streets through their whole extent, and we find that in every instance, where we have had the opportunity to examine the roofings, whose locks, besides hundreds of others, we have put on, that they are perfectly tight, and in many instances the machines on Michigan and Wabash avenues. As it is not liable to be injured by being walked over. They are often used for the purpose of repairing old roofs, and with impunity for the last six years without exhibiting the least fault.

But the public ought to know that there is a great variety of roofings, which, from their external appearance, and first appearances when first laid, but very different in their character of durability and real service. There is a difference in the materials used, as well as in the quantity used on a square of roofing. There is a difference in the mode of laying the materials, and a difference in the mode of the ingredients employed, as well as a difference in the Roof, and those manufactured of our materials accordingly. Therefore, here everywhere, from the above considerations, there are some pieces where "Composition Roofs" are put on, and are consequently in bad repute.

Now, we would say to the public, that our roofing is not to be identified with that class of "spurious" Composition Roofs, which are now falling into disrepute in this city. We furnish precisely the same quality of material and employ the same mechanical skill in putting on our roofing, and the same manner of laying this kind of Roof, as we did in the first roof we put on, and we are willing to submit to the superior quality of our Roofs and the good workmanship, and we refer to the public for the truth of the above, we will furnish such reference as cannot fail to satisfy the most skeptical.

BARRETT, ARNOLD & TOWNE,
No. 3 North Water, 1 door west of Dearborn.
June 2, 1857—2m-3-13

Sheffield Coal.

DAILY ARRIVAL OF 100 TONS.—THIS coal will compare favorably with the best coals in the market. Professors Porter and Hillman, of Yale College, in their reports, say:

Your coal is of superior value for the production of gas, and from its purity and freedom from sulphur and ashes, and coal is peculiarly adapted for that use. It burns to a white ash, in small quantity of ashes, which are free from clinkers, &c., &c.

And other and another analysis: We find your coal even superior to that of the famous Brier Hill in matter of gas and coke.

Our sales, which exceed at the present time by far that of any other coal in the market, are the best evidence that SHEFFIELD COAL is only to be known to be appreciated.

Orders left at the office, corner of Clark and North Water, the following may be commenced:

Coal will be sold at the yard in the market. Our daily receipts of coal from this port, amply proves it. The following may be commenced:

We have for some time past been using the Sheffield Coal in our forges, and we find it superior to any coal we have ever used for the purpose of producing uniform heat.

(Signed)
H. P. HOWE, IRON WORKS.
HARLOW BROOKS & CO., Manufacturers.
THOMAS HALE & CO., Manufacturers.
TERRENCE HART, Chicago Iron Works.

Jan. 1, 1857—1y

From some of the most extensive Hotels in the city, by no private sale or family.

We are using the Sheffield Coal in our houses. We find more warmth for the purchase of fuel, produces more heat, and less ashes than any coal we have used, and we consider the cheapest Coal in the market.

DOREE & LARDNER, Sherman House,
BROWNE & WHALEY, Briggs House,
SETHMORE HUNT, Chicago Iron Works.

St. The coal is always dry, and in good condition. At the yard, corner of Clark and Kinzie, and at the office, No. 1 Lake street, corner of Clark. The coal is carefully screened before delivery. This coal alone makes a difference of at least fifty cents per ton in the cost of gas.

This Coal is used extensively in Chicago, by Brick and Stone Masons, and is highly recommended by them for its superior heating qualities.

☞ In this line, we would refer to one of the most prominent manufacturers in the STOCKTON WORKS, Sheffield Coal Yard, Clark st., near Taylor.

IMPROVE YOUR EYESIGHT.
PARIS
OPTICAL ESTABLISHMENT,
87 Clark Street, Room No. 2, Up-stairs. '57
Are French Crystal, Scotch & Brazil Pebble
SPECTACLES,
PURE AND FINE FRENCH BI-CONVEX
and Hemispere Crystal Glasses, set in Gold, Silver and Steel Frames.
Also, Gold and Scotch Pebble Quizzing Glasses, ground on the premises, and warranted to suit the sight perfectly, or no sale. Spectacles changed from old frames to new, according to the sight, in a few minutes. Also, Gold and Silver Watches, Chronometers, Chronographs, Compasses, Thermometers, Barometers, Opera Glasses, Telescopes, Microscopes, Magnifying Glasses, Mathematical Instruments, and every description of sight material, at the Chicago Optical Establishment.
A good assortment of Opera Glasses, Barometers, Thermometers, Compasses, Telescopes, Microscopes, &c., &c., constantly kept on hand.
☞ Spectacles and optical persons residing at a distance can have their sight tested by addressing a letter stating their age, and if by preference, by forwarding to me accurate pattern of the glasses they wear, and I will select glasses to suit their sight, and forward them by express, to be paid for on delivery, otherwise it will be impossible to suit them.
Spectacles and Eye Glasses repaired, and new glasses inserted in old frames.
Chicago, July 1, 1857—1y-27-1

Notice is hereby given that the undersigned, Graduate of the Optical Institute of Vienna and Paris, has opened an office in this city, and will be found at the above number and street, where he will be happy to wait upon all persons who may favor him with a call.

DAILY TRIBUNE.

Friday Morning.....July 10, 1857.

Election in France.

The French election is over, and, as was anticipated, the Government party were victorious almost everywhere. As far as heard from, only seven Republicans had been elected to 267 creatures of Napoleon. In the rural districts the mayors, perfects, priests, office-holders and soldiers carried everything before them. The Republicans were not permitted to speak their sentiments; their papers were muzzled and liable to be garroted; no public meetings were allowed to be held; no popular canvass of any kind was permitted, while, on the side of the Government, perfect freedom of discussion and speech was vouchsafed to its supporters. But even had a Republican Legislature been chosen it would have been a barren victory, as it would not have dared to oppose the will of the Government. The election of Republican candidates in Paris, Lyons, Lille and Bordeaux, and the heavy minority vote cast by the Republicans in all the large cities, proves that the fire of liberty, though smothered, is not extinguished. In the rural districts power and the priesthood are temporarily omnipotent; but in the great cities, where is still some remnant of a public opinion, it continues to make itself felt and seen.

In Paris the vote stands:

Government	19,238
Republican	24,849
Their Majesties	4,000

The Republicans carried three Wards, and the Government four. In three there was no choice. Upwards of 100,000 voters in the Paris department abstained from voting, a large majority of whom are known to be Republicans, who were fearful of incurring the vengeance and persecution of the Government, and therefore remained at home.

NEWS BY LAST NIGHT'S MAIL.

Invitation to the Councils of St. Louis and Cincinnati to Visit Baltimore.

BALTIMORE, July 7, 1857.

The railroad companies between this city and St. Louis have extended an invitation to the City Councils of St. Louis and Cincinnati to visit Baltimore and Washington on the 16th inst. The invitation has been accepted, and the preparations are making for the occasion.

From Washington.

(Special Dispatch to the N. Y. Tribune.)

WASHINGTON, July 7, 1857.

The Postmaster-General will not be made. The delay is caused by a desire to bring in all new incumbents at one time. Messrs. Streeter, Solicitor; Brodhead, Second Controller of the Treasury, will go.

The Presidents and Gens. Cass, hitherto supporting Gov. Walker, are now shaking. They talk of his usefulness in interfering in behalf of Free State men.

Mr. Ex. Collins's claim for $125,000 back pay is not yet allowed but is before the Attorney-General.

The Havre and Bremen mails have been equally divided between the Livingston and Vanderbilt lines, each making thirteen trips per year.

The Union has a suggestive article in favor of submitting the Kansas Constitution to the popular vote, but hints that a Convention may limit the popular constituency at pleasure.

Border Ruffian Convention in Kansas.

(Special Dispatch to the N. Y. Daily Times.)

LECOMPTON, K. T., Friday, July 3.

Yesterday a Convention of the National Democratic party of the Territory of Kansas, met in Lecompton, and nominated candidates for Delegates for Congress. The assemblage was large. Judge Elmore presided.

The first day was occupied with a discussion of the propriety of electing one of two Delegates from Atchison County, both of whom claimed the seat. The difficulty had its origin in the determination of some of the people of that county to start as a candidate, in opposition to Dr. Isaringhine, (who, as well as he, regularly appointed delegation was pledged,) a gentleman named Carr, from South Carolina.

Mr. Carr's name was finally withdrawn by his friends, Dr. Stringfellow then refused to put in nomination, and the contest lay between Governor Ransom, lately of Michigan, and Hon. Ely Moore, once of New York. On the fifth ballot, Gov. Ransom, who, as well as his competitor, is a Northern Democrat, was elected by a two-thirds vote. The Convention then re-affirmed the resolutions of the Convention of January last, passed resolutions expressive of a determination to support Gov. Walker in his efforts for the preservation of the peace of Kansas, and endorsed his policy on the subject of the Indian lands; and a suggestion was made favoring the financial interests of the country.

A resolution was offered by Mr. Jenkins, a strong Pro-Slavery man, in favor of the adoption of a State Constitution, to be passed by a Constitutional Convention, without submitting to the people for ratification or not. This resolution was warmly opposed, and was finally voted down by a vote of forty to one. This is regarded as a signal triumph by the moderate Democracy, who now regard the success of the party and its nominee as certain.

Marriage of Bayard Taylor.

Says the New York Tribune of the 8th inst.:

As other journals have already mentioned the fact, it is, perhaps, not improper for us to state that Mr. Bayard Taylor is about to be married to Miss Marie Hansen, a daughter of the eminent German astronomer of that name. The wedding will take place at Gotha, the residence of the bride's family, in the autumn, after Mr. Taylor's return from the North Cape. The happy couple will spend the next winter in Moscow. This event will not prevent the execution of Mr. Taylor's plan of an exploration of Central Asia, previous to his return to this country.

CITY ITEMS.

BLACK SWAN.—Miss Elizabeth G. Greenfield, known as the "Black Swan," is announced to give a series of Concerts in this city next week.

DR. BOYNTON.—We hear that Dr. Boynton has been engaged by a party of gentlemen to deliver a course of eight lectures on his favorite science, "gravity in the Fall," in this city.

DUSTY.—The air was filled with dust yesterday and choking sensations were abundant. Hurry up the engine for the water works, so that the street sprinklers may be used again.

THE APPLESEED MURDER.—A rumor was current in the streets yesterday evening that the murderer of Appleseed had been arrested. This rumor was, we are satisfied, without any foundation in fact.

HIGH SCHOOL.—The examination of candidates for admission to the High School, was commenced yesterday in the High School Building. There are one hundred and twenty-three applicants, about one-half of whom are girls. The result of the examination will be officially announced in due time.

SUNDAY SCHOOL CELEBRATION.—The Clark street, Jefferson street and Ogden street Sabbath Schools, with a large number of friends went to Crystal Lake yesterday on a pic-nic excursion. There were ten cars well filled, and the participants returned last evening, greatly pleased with their excursion.

MYSTERIOUS.—Yesterday afternoon, a sailor was found in the West Division, near the South Branch, lying in a lumber yard with his head and face terribly bruised. He was very insensible, and could give no account of himself or the persons who had beaten him. He was sent to the Marine Hospital and is not expected to live.

INSURANCE COMPANY.—We understand a new Marine and Fire Insurance Company is to be organized in this city. They have taken rooms in Pamerly's new building, in South Water street, and will be rapidly to commence business in a few days. The list of the Board of Directors embraces the names of some of our best merchants and citizens.

RAVINE SCHOOL.—Ivory Tutsheon, aged about ten years, was yesterday sent to the Reform School for robbing the dwelling of H. Norton; Esq., corner of Washington and Halsted street, on last Saturday afternoon while the family were at Church. The value of the property taken was about $100. Tutsheon says that he was coaxed into committing the robbery by a young man named Williams, who has fled the city.

I AM BAD.—Yesterday afternoon Richard Smith, arrested for robbing the room of Jacobs, at the Hamilton House, made a bold dash for freedom. While officer Taylor was taking him back to his cell, after his arraignment in Court, he started on a run for the northwest gate of the court yard, but was caught by officer Smith, who was coming up the walk.

LARCENY OF A CHECK.—Officer Kaufman and Douglas yesterday arrested Frederick C. Schwartz, upon a charge of stealing a check for $125, payable to Moritz Kornbeck or bearer, at Smith's Hotel. It appears that Kornbeck boarded at the Our Home, on South Clark street, kept by Schwartz, that the check was in a trunk, and that on the 10th of June said Schwartz got the check cashed. The accused has been indicted by the Grand Jury. The Our Home, with a number of buildings adjoining, was destroyed by fire a short time since, and Schwartz is now charged with having set the building on fire for the purpose of procuring the insurance upon his property.

NEW MUSIC.—Messrs. Higgins Bros., No. 66 Randolph street, have just published the following ballads:—"Speak softly to the fatherless," composed by H. P. Danks; "In Heaven we meet again," composed by Charles Heyer; "Good bye Blue May," composed by T. B. Bishop; also, the "Prairie Zephyr Waltzes," by Mlle Kate E. Dutch; and "Nellie dear lies sleeping," a ballad by T. B. Bishop.

TO CITY SUBSCRIBERS.—In consequence of our carrier on the West Side having run off and taken with him the route book, and of one on the South Side being sick, a number of our subscribers will not receive their papers as punctually as they have been accustomed to. But have patience friends, in a few days your papers will be delivered promptly and at the proper hour.

ACCIDENT.—A switch tender on the Galena Railroad was severely injured yesterday while coupling cars. He is a German, residing in Washington street. We could not learn his name. It appears the unfortunate man was struck by the drain as it was backed down, and thrown under the cars, one truck passing over his leg and crushing it terribly. A physician was sent for and the wounded man removed to his dwelling. The accident occurred on 42d street near Jefferson.

TRINITY CHURCH.—The Chicago Record learns that the Rev. Dr. Butler, of Cincinnati, having declined the call to Trinity Church in this city, the Vestry have tendered the Rectorship to Rev. Mr. Schenck, of Gambier, Ohio. The church is closed at present for the purpose of repairs and enlargement. It is universally lamented that the vestry did not proceed to erect a new and elegant church, instead of patching up the old one. We hope they will soon do so.

U. S. STEAMER MICHIGAN.—The Michigan reached here yesterday, having left Mackinac on Wednesday. She will remain here a few days and then proceed to Grand Haven and ports on the east shore of the lake. The following is a list of her officers:

Capt. C. H. McIlvaine; Lieutenants J. H. Spoor-wood, Samuel Magaw, J. E. Lovett; Surgeon James McCulloch; Purser A. L. Mitchell; 1st Ast. Engineer J. S. Rutherford; 2d Ast. Engineer T. J. Leverson and Thomas Crouls; Carpenter, James McDonnell, Pilot A. St. Barnard; Clerk, N. Thorne.

The Michigan lies near Rush street bridge.

ALLEGED THIEF ARRESTED.—Yesterday forenoon officers Douglas and Kaufman arrested a man named I. J. Lysburgh, upon a charge of having robbed the room of a guest at the American House, of a breast pin and other property which was found in possession of the accused, together with a key which unlocked nearly every chamber door in the house. In Lysburgh's trunk was found a quantity of miscellaneous articles, such as combs, brushes, perfumery, clothing, etc., evidently stolen. He was sent before the grand jury for indictment.

U. S. CIRCUIT COURT.—In the case of Joseph C. Mitchell (colored) versus Charles H. Lamar, the Court has not rendered its decision. Counsel have argued it as to the right of Mitchell to sue in the U. S. Courts.

The trial of the case of the owners of the steamer Effie Afton versus the Mississippi Bridge Company, has been continued until the next term.

The arguments were commenced yesterday in the case of the owners of the schooner Arkansas versus the owners of the propeller Detroit. This is an appeal case from the District Court.

MEDICAL BOARDS AT THE HOSPITAL.—The Board of Health held a meeting yesterday afternoon at the Mayor's Office, and resolved to appoint two Medical Boards for the new city hospital, one composed of Allopathists and the other of Homœopathists.

The Allopathic Board consists of Drs. Miller, Ross, Craig, Isham, Wagner and Schloetzer. The consulting physicians for this Board are not yet appointed.

The Homœopathic Board consists of Drs. Shipman, Seymour, Cook, Laidlaw, Colton and Boardman. The consulting physicians for this Board are Drs. Small and Pliney.

The rules and regulations governing the hospital were adopted as heretofore reported by the Board of Health to the Council and published in the newspapers, except the appointing of two Boards of Physicians instead of one.

MR. BEATON'S BENEFIT.—The bill at North's National Theatre, this evening, on the occasion of Mr. Burton's benefit, is unusually attractive. The piece—the Serious Family and the Toodles—are those in which the great comedian has made his most popular hits, and we have no doubt the house will fail to draw a full house. If we could warrant our readers that Mr. Burton's supporters would know their parts—that they will is probable, as both pieces have been played before—and that those two straddle-bugs, the sisters Hemrade, would intermit their frightful dancing, we could predict that every seat, from pit to parquette, would have an occupant. Mr. Burton deserves a full house and hearty entertainment from the stage, it is probable that this is his last appearance in Chicago. Those who have not seen him will improve this opportunity to do so.

As a meeting of the "Shields Guards," held at their armory on the evening of the 6th of July, it was unanimously

Resolved, That the thanks of the Shields Guards be tendered to the citizens of Woodstock, for their hearty and courteous reception of our company on the occasion of our late visit to their city in the celebration of the 4th.

Resolved, That we tender to the Fire Company No. 1, of Woodstock, our heartfelt thanks for their attentions to the members of our company, and for their with the liveliest pleasure, the opportunity of greeting them in Chicago.

Resolved, That the our warmest thanks be tendered to the Rev. Bernard O'Hare, and to Mr. Foreman Wilgus, of Engine Company No. 1, for their generous hospitality and reception, and to the citizens of Woodstock generally, for their kindness to their city; and that we shall bear them in lasting and grateful remembrance.

Resolved, That a copy of the foregoing resolutions be published in the Chicago Times, Tribune, and Woodstock Democrat.

J. J. O'SULLIVAN, Pres't.
J. HICKEY, Sec'y.

FIREMEN'S TOURNAMENT.—We notice that arrangements are being made for a Firemen's Tournament at Elmira, N. Y., on the 31st of August next and continuing over the week. It is expected that over one hundred and fifty companies will be present from different portions of the country. The firemen will go into camp on their arrival at the grounds, remaining until after Friday. On Friday there will be a grand trial of Engines for the prizes, followed by a review and a torch light procession in the evening.

The following is a list of the premiums offered:

First class engines using 1¾ inch nozzle	$125
Second " " "	75
Third " " "	50
Second pumpers	50
Third "	30
Fourth "	20

The general supervision of the companies will be under the direction of Harry Howard, the Chief Engineer of the New York Fire Department, assisted by the Chief Engineers of Philadelphia, Baltimore, Cincinnati, Chicago and other cities.

Gen. Burroughs will deliver the welcome address to the Firemen and Chas. S. Spencer, Esq., of New York, will respond for the Firemen. Hon. Thomas Corwin, of Ohio, is to deliver the oration. Each company competing for premiums will be required to pay an entrance fee of $25. We learn that several of the best companies in this city intend being present and the display will doubtless be very fine. There is also to be a National Horse Exhibition at the same time and place.

RECORDER'S COURT.—The following cases have been disposed of in the Recorder's Court up to last evening:—

John Cotter pleaded guilty to stealing a pair of boots, and was sentenced to five days imprisonment in the county jail.

Jerry Prendergast pleaded guilty to a conspiracy to extort money from prostitutes—not sentenced.

James Molloy, Patrick Casey and William Gillen were tried yesterday, and convicted of the larceny of $273 from Miles McCullough, an old man from Prince Edward County, Va., and their term of imprisonment fixed at two years each.

George Bennett alias Hogey Hills, pleaded guilty to swindling Master Reuben McLane with a gas-vamped watch—not sentenced.

Charles Johnson (colored) pleaded guilty to stealing a gold watch from W. S. Granger—not sentenced.

Edward Chase was convicted of stealing a coat worth less than $5, and sentenced to five days imprisonment in the county jail.

George Morrill pleaded guilty to stealing $130 in gold from Thomas Chesnut at the Watkins House. The prisoner satisfied the court that he is under eighteen years of age, and he was sentenced to ten days confinement in the county jail, this being his first offence.

George Anderson pleaded guilty to stealing a watch, valued at $5; sentenced to thirty days hard labor in the Bridewell.

Jacob Claybourne pleaded guilty to passing counterfeit money, and sentenced. John Adams, indicted with Claybourne, plead not guilty, and his trial was put over to the next term.

Thomas Pepin plead guilty to stealing a dozen pocket handkerchiefs from the person of Mr. Hall. The prisoner is a boy of tender years, being but ten years of age, and the court gave him ten days confinement in the county jail.

John Allen was tried for an assault upon Fellow, Henry Gibbs, with an intent to kill, and acquitted. Allen is held upon another indictment for an assault upon Gibbs with intent to commit bloody murder.

The Grand Jury will probably complete the business before them by the close of the present week.

SMITH'S TOUR OF EUROPE.—We had little conception of the artistic merit of this panorama now on exhibition at Metropolitan Hall, till we called in last evening. We are confident that many of our readers will thank us for calling their attention to it as one of the very best that has ever been on exhibition in this city. The sublime scenery of the Alps, the architectural wonders of the old world, the places of historical interest, are here presented in a most faithful manner, together with facts, incidents and explanations of thrilling interest to all, young and old. It is exhibited this evening and to-morrow afternoon. Go, by all means, and take with you your wife and children, or lacking these, your sweetheart, cousin, or whoever else you need to help you enjoy what is beautiful in art.

[For the Chicago Tribune.]

THE EXCURSION TO ADRIAN.—We can no other answer make, but thanks, and thanks, and ever thanks. The excursion of Garden City Engine Co. No. Six to Adrian, Mich., on the third day of July, on which occasion we were the guests of Protection Engine Co. No. Two, of that city, will ever be remembered by all who were so fortunate as to participate therein, and years, hence, this feature of the past will ever recur to them, blest with the brightest and happiest memories. It was indeed a joyous event, and one ever memorable in the History of Garden City Engine Company No. Six.

In the attempt to speak of the succession of enjoyments, or to find words wherewith to express our thanks, we feel the poverty of language.

From the moment of our embodiment and departure until our return, we were participants in an unceasing round of pleasure, and the recipients of the most generous hospitalities and kindly favors.

When in Adrian, everywhere, as were by the encouraging friendship, and the princely hospitalities of our brother firemen, we were deeply sensible of the honors conferred upon us by the citizens, whose cordial greeting and accompanied acts of attention and courtesy were deeply gratifying to us, and will ever be remembered as among the treasured recollections of our visit. Indeed, we were engaged in same only actions testifying that we were welcome, thrice welcome, to the beautiful city of Adrian.

We would be untrue to ourselves did we not attempt to acknowledge our hearty debt of gratitude to those to whom we are obligated for all our rare enjoyment, and especially to those firm and devoted friends who so largely contributed to our happiness.

Prompted by our hearty obligations, and in performance of a pleasing duty, we attempt them, all inadequately, to express our thanks.

Resolved—That having enjoyed our late visit to Adrian with especial gratification, we hereby tender to the Fire Department, its citizens in those friends who contributed to our happiness, our sincere thanks.

Resolved—That the attention shown us by the Officers and Members of Protection Engine Co. No. Two, of Adrian, will be to Adrian, we gratefully received as it was freely given, and that we will ever cherish the memory of the kind and courteous characteristics of the true fire man, hospitality and friendly attention, our members of Adrian have proved themselves worthy the spirit of the age.

Resolved—That to Mayor Maloney, Dr. Spaulding, Chief Engineer Berry, and others too numerous to mention for the kind and courteous attentions shown us by the citizens of Adrian, and that we beg of them to accept our sincere acknowledgments.

Resolved—That we are too grateful to the citizens of Adrian for their kindness to us, and for the generous manner in which they received us, to express in words our appreciation of the same, but we will ever remember them as the most generous and hospitable people we ever met, and that we will ever entertain a grateful and kind remembrance of them.

Resolved—That to the ladies, the purest and most lovely of "the flowers in the garden of flowers," we gladly speak our thanks. Their kindness to us, and to the firemen generally, will never be forgotten—is among our brightest and happiest memories.

Resolved—That to the eagle change his plumes,
The lion his mane,
But these around our hearts are ever,
Memories of Adrian.

Resolved—That to Mr. Brown, Superintendent of the S. F. & T. R. R., we are grateful for courtesies bestowed, May the A.D.R.R. Co. ever be as successful as the remainder of its years.

Resolved—That our thanks are also due to Conductor Engineer Vanderpool, Messrs. Mills, Russell, Miller and others of the A.D.R.R. Co., for their kindness to us, and for our pleasant passage home.

Resolved—That our thanks are also due to the Conductors for their kindness in stopping to and returning from Adrian on the 4th inst.

Resolved—That our thanks are due to the pastor of the Episcopal Church for the kind invitation to attend his church on Sunday, July 5th—and to the congregation for our pleasant reception by them.

Resolved—That we tender our thanks to Mr. May, of the Tribune Press, and to the Foreman of the Press room.

Resolved, That a copy of these resolutions, signed by the Secretary, be sent to the Company and to each of the newspapers of Adrian, and that the city papers be requested to publish the same.

C. D. HILL H. Committee.
S. S. SHERMAN, H. GOLDY, J. S. CORNELL,
Committee of Adrian.

J. H. GOLDY, Secretary.

GET your Door Plates at Bacon & Cox. Engraving Rooms, No. 65 Clark street, up stairs. 11

ROWIE E. BACON & CO., Engravers, 65 Clark street, are in want of several first-class engravers, and one copper-plate engraver, to whom the best wages will be paid and permanent employment given.

FIRST week in the month of July: Men of America—Men of the Age. The greatest man, "take him all in all," of the last hundred years, was George Washington—an American.

The greatest Doctor of Divinity was Jonathan Edwards—an American.

The greatest Philosopher was Benjamin Franklin—an American.

The greatest living Sculptors is Hiram Powers—an American.

The greatest living Historian is Wm. H. Prescott—an American.

The greatest Ornithologist was J. J. Audubon—an American.

The greatest Medical Chemist of modern times, Dr. J. C. Ayer, inventor of Ayer's Cherry Pectoral and Cathartic Pills, is an American.

The greatest Lexicographer since the time of Johnson was Noah Webster—an American.

The greatest inventors of modern times were Fulton, Fitch, Whitney and Morse—all Americans. 11

ALEXANDER'S CIRCULATING LIBRARY, 102 NORTH CLARK STREET.—R. R. Alexander has opened, in connection with his periodical and book store, a circulating library, where may always be found the latest works of interest, and all the standard works of note, to which the attention of the public is respectfully called. Mr. Alexander has a peculiar feature in this enterprise, by which the community will do well to call. He has made an arrangement with a leading publishing house in London to forward direct by steam or otherwise, the earliest issues of all new publications of interest, so that the subscribers will have a chance of reading such works a year before they are to be had in this country. The assortment is very low; the stock of books is large and very well selected. The library is open daily (Sundays excepted) from 7 A. M. till 10 P. M. Give him a call. To the inhabitants of the north side especially this is a great boon, and by them should be well patronized.

R. R. ALEXANDER, 102 North Clark street.

THE Sewing Machines of Wheeler & Wilson, Manufacturing Co., so well known in families and manufacturing establishments throughout the United States and Europe, may be examined and purchased at the West ern office.

These machines elicit the admiration of all, and are rapidly becoming indispensable to families. They are simple, durable, and at the pleasure of the operator will stitch the finest and coarsest fabric almost noiselessly, and with unprecedented rapidity.

GEO. R. CRITTENDEN, Agent,
jy6,d1w-s2t 159 Lake st., (over W. M. Ross & Co's.)

BURNETT'S ORIENTAL TOOTH WASH.—This Elixir for the teeth and gums contains, in a concentrated form, the most desirable and most properties, at the same time it contains nothing which can possibly injure the most sensitive and delicate organization.

It arrests decay of the teeth.
It cures canker in the mouth.
It is unsurpassed as a gargle.
It acts as a dampner after smoking.
It renders the gums firm and healthy.
It neutralizes the offensive secretions of the mouth.
It imparts to the breath a fragrance peculiarly aromatic and pleasant.
It has received the sanction and patronage of the most eminent Dental and Medical faculty.
Prepared only by Joseph Burnett & Co., Tremont st., Boston. For sale by J. H. Reed & Co., Falmouth & Davis, Gale Brothers, and by Druggists generally, at 62c per bottle. Ap1-1w-eklv-3m

jy6 No. 148 Lake st., Chicago.

Marryatt's Works.

CAPTAIN MARRYATT'S SEA STORIES are unquestionably the best in their peculiar line. His ships, his officers, his sailors, his fighting, his language, the manners and customs of those whose business is in or about ships, are perfect to a degree that makes them at the same time a convenience of feeling, that makes them delightful reading. Dutton's Universal Edition. Price $1 00 per vol. neatly bound in cloth and illustrated.

For sale by KERR & LEE,
jy6 No. 148 Lake street, Chicago, Ill.

Special Notices.

LEA & PERRINS' WORCESTERSHIRE SAUCE.—Attention is invited to the following Testimonial from Messrs. Canvers for Clubs, Messrengers, and Private Families is acknowledged to be a fact of LEA & PERRINS' Pungent WORCESTERSHIRE SAUCE. This additional tip for condiments to which, under the name of "Harvey" sauce as a pleasant, palatable, and wholesome Sauce, is available to every table, hot and cold, whether for fish, flesh, or fowl. It is decidedly used in all quarters of the globe.

Beware of "imitations" on both sides of the Atlantic equal quality of its merits; and the fact that it received the only Medal awarded to Foreign Sauce at the New York Exhibition, should be sufficient guarantee of what is told by those solicited with special reference to their ability to judge of the quality of similar articles of table use. And being the most popular Sauce in the market unprincipled parties are offering for sale spurious Sauce by unduly copying the spelling of "Lea & Perrins," only proprietors of the Genuine Sauce.

A short always in use. Also orders received for direct shipment from England.

JOHN DUNCAN & SONS,
29 Broadway, New York.

IMPORTANT TO FEMALES.—DR. CHEESEMAN'S PILLS.—The combinations of ingredients in these Pills are the result of a long and attentive practice. They are mild in their operation, and certain in correcting all irregularities, painful menstruation, removing all obstructions, whether from cold or otherwise, headache, pain in the side, palpitation of the heart, disturbed sleep, which always arise from interruptions of nature. They are unanimously used as a preventive. These pills should never be taken in pregnancy, as they would be sure to defeat a miscarriage. Warranted purely vegetable, and free from anything injurious to the health. Full directions, of which should be read, accompany each box. Price $1. For sale by C. V. Otterson & Co., No. 31 Barclay street, New York; Fenton, Fisher & Co., 84 Lake street; and Fenton, & Robinson, 15 South Water street, Chicago.

NOTICE.—The undersigned, as agents of E. I. Tinkham & Co.'s Bank, McLeansboro', will redeem notes at the ex rent rate, for exchange.

se29—2m EDWARD L. TINKHAM & CO.

SPEED OF WHALES.—A boat attached to a sperm whale, in the Pacific, was driven 32 miles inside of an hour, and the probability is, that a whale will go at the rate of 50 miles per hour. A steamer could not exceed Liverpool and Boston in 8 days. Another steamer left Liverpool and Boston in 8 days. Another steamer left Liverpool and Boston in 8 days. Another steamer left
